

HELP BRING A SMILE

to a Child with Special Needs

Support Our New Innovative Pediatric Therapy Center

You can bring a smile to children with special needs and peace of mind to their parents through your support our new state-of-the-art center featuring the latest in therapeutic innovations in a unique and inviting jungle atmosphere.

SPONSORSHIP AND NAMING RIGHTS OPPORTUNITIES

Jungle Swinging Area

Our expert therapists use creative, goal directed activities in the Jungle Swinging Area to help children thrive by targeting their unique needs. The various swings and zip line help children improve coordination, fine motor and visual skills.

For \$30,000, your family or company name will be featured prominently in the Jungle Swinging Area.

Jungle Gym Structure

The Jungle Gym Structure is a multi-level, interactive play area designed for gross motor activities. It allows therapists to address a variety of needs for children of all ages in a fun and stimulating atmosphere.

For \$30,000, your family or company name will be featured on the Jungle Gym Structure.

Cozy Cave

The Cozy Cave will offer a quiet, therapeutic environment for children with sensory processing disorders like Autism.

For \$25,000, your family or company name will be featured in the Cozy Cave.

SPONSORSHIP AND NAMING RIGHTS OPPORTUNITIES

Your family or company name will be featured prominently on a commemorative plaque in the area sponsored.

Safari Jeep

The Safari Jeep works with children on fine motor, sensory and cause and effect skills like getting in/out of the car. There is also a mat table attached that can be used in a variety of ways. **\$10,000**

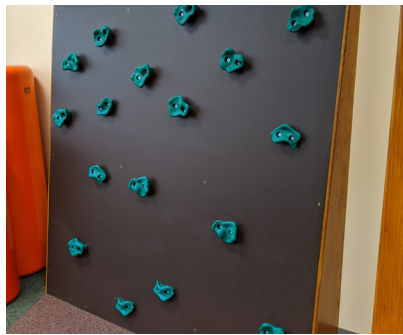

Universal Exercise Unit (UEU)

The UEU is a suspension system of pulleys and elastic cords that allows clients to use full or partial weight bearing to attain functional skills. **\$5,000**

Rock Walls (2)

The two rock walls aide in motor planning, coordination and muscle strengthening for children with a number of special needs. **\$3,000**

Jungle Arbor

The multipurpose Jungle Arbor can be used as an obstacle course to work on gross motor development, balance and coordination. **\$3,000**

Ball Pit

The Ball Pit is a great place for children to develop gross and fine motor skills through visual, touch and sensory input in a fun environment. **\$2,500**

Walking Wall

The Walking Wall is a safe and creative tool for gait, balance, coordination training and challenging gross motor activities. **\$1,000**

Doors to Individual Treatment Rooms

Individual treatment rooms, including the Activities of Daily Living Bedroom, Pretend Play Room, Arts and Crafts Room and many more are available for sponsorship.

For \$5,000, your family or company name will be featured on the door of an individual treatment room.
